Professional Summary

Full Stack Engineer with 3 years of experience building scalable, high-performance web applications using React, Angular, Node.js, TypeScript, PostgreSQL, and MongoDB. Skilled in SaaS and enterprise platforms, real-time applications, reusable UI components, RESTful APIs, performance optimization, state management, WebSockets, authentication (JWT, RBAC), and Docker-based deployments. Experienced in delivering clean, maintainable architecture and fast, user-focused software with production-level reliability. Strong track record of improving application performance, reducing technical debt, and designing scalable systems.

Technical Skills

Languages: TypeScript, JavaScript
Frontend: React, Next.js, Angular (14–18), RxJS, NgRx, Redux Toolkit, Zustand, TanStack Query, React Router, HTML5, CSS3, SCSS, Tailwind CSS, Material UI, Kendo UI, Bootstrap, Webpack, Vite, Babel, ESLint, Prettier, Responsive Design
Backend: Node.js, Express.js, RESTful APIs, Socket.io
Databases & ORMs: PostgreSQL, MySQL, MongoDB, Redis, Drizzle ORM, Prisma, Sequelize, Mongoose
Auth & Testing: JWT, RBAC, Jest, Vitest
Cloud, DevOps & Tools: Docker, AWS (S3, CloudWatch), Firebase, Vercel, CI/CD, Git, GitHub
AI: LangChain, RAG, Vector Embeddings, LLM APIs
Architecture: Modular & Layered Architecture, API Design, State Management, Scalable System Design

Experience

Software Development Engineer Jun 2023 – Present
RemoteState

- Engineered scalable SaaS and enterprise applications with React, Angular, Node.js, TypeScript, PostgreSQL, and MongoDB across multi-role business workflows.
- Built responsive, reusable frontend components improving UI consistency, development efficiency, and maintainability.
- Optimized frontend rendering, state management, and API handling, improving dashboard responsiveness and user experience.
- Developed RESTful APIs with Node.js/Express.js using modular architecture for scalable backend systems.
- Improved MongoDB/PostgreSQL query performance via indexing and schema optimization, reducing API response times by 30%.
- Implemented real-time dashboard features using WebSockets (Socket.io) for instant updates.
- Integrated JWT authentication and RBAC for secure multi-role enterprise applications.
- Refactored legacy frontend and backend modules to reduce technical debt and improve maintainability.
- Authored reusable business logic and participated in code reviews to maintain clean, production-ready standards.
- Containerized applications with Docker and deployed via Firebase and Vercel.
- Collaborated with cross-functional teams in agile environments to deliver scalable, user-focused software.

Projects

AI Knowledge Assistant Next.js, LangChain, RAG, LLM APIs

- Built an AI-powered document querying platform using RAG pipelines and LLMs for context-aware responses.
- Implemented PDF ingestion, chunking, semantic search, and vector embeddings for efficient document retrieval.
- Integrated LangChain & LLM APIs for natural-language querying of large document collections.
- Optimized API usage and retrieval workflows for faster performance and lower costs.

Cab Buddy – Real-Time Ride Matching MERN Stack, Socket.io

- Developed a real-time ride-booking platform with dual-role authentication, ride lifecycle management, and live tracking.
- Integrated WebSockets, JWT, RBAC, Redis, and Google Maps APIs for secure real-time interactions.
- Designed scalable MongoDB schemas and optimized backend APIs for ride management and user workflows.
- Built reusable frontend components with efficient state management using React/Angular.

Blogify – Role-Based Content Platform React, Node.js, PostgreSQL

- Built a full-stack blogging platform with secure authentication, role-based access control, and RESTful APIs.
- Implemented layered architecture principles to ensure scalability and maintainability.
- Developed CRUD operations, protected routes, JWT workflows, and modular frontend components.
- Containerized PostgreSQL using Docker for consistent deployment environments.

Education

B.Tech in Computer Science and Engineering 2019 – 2023
IMS Engineering College, Ghaziabad, India
